

JOHNSON BUS PROTOCOL

FOR AN INJURED OR SICK STUDENT ON THE BUS

1. The Driver will safely park the bus, identify the situation, and call Johnson Dispatch.
2. If the situation is deemed to be life-threatening the Manager or Dispatcher will call 911. Otherwise, the Manager or Dispatcher will contact the parent(s) to receive guidance on whether medical assistance should be requested, or how to proceed. The school will be informed of the situation as soon as the issue has been addressed.
3. If the parent(s) cannot be reached, the Manager or Dispatcher will decide on the course of action to take.

Other important considerations:

The Manager and Bus Driver **should be informed about any serious health conditions that may affect a student during transportation.** Parent cooperation with the use of the Medical Alert form is highly recommended. Medical information will be considered confidential by the Johnson Bus Company employee.

The parent(s) or guardian will be responsible for any medical costs incurred as a result of others acting on behalf of their child.
